To the Board of Education of School District #71:

It has been a matter of growing concern to the students, staff and parents of Ecole Mark R. Isfeld Secondary School that Portable #3, the only portable on our school property not currently in use, has been unusable since the very beginning of the school year, and is still not usable. Because of the fact that this portable is unavailable, a strain has been put on one of the computer labs in the school, which is used as a regular classroom part of the time, and as a part-time computer lab – displacing teachers and students regularly and diminishing the educational potential for both the computer lab and the regular classroom space the portable should be providing.

As parents of those students affected, we would like to request your immediate consideration of this matter, and having accepted for almost nine months the non-use of this portable, we would appreciate having it ready for classroom use by May 1st, in order to give classes two months of settled classroom space before the end of the year.

Thank you very much in advance, and on behalf of Isfeld students and staff,
Respectfully,
The Executive and PAC of Ecole Mark R. Isfeld Secondary
